

DEAR GIVING CIRCLE FOUNDATION,

I was inspired to learn of your impactful work. Your commitment to uplifting those with the least access to opportunity deeply resonates with us at Shanti Bhavan.

I am grateful for the opportunity to tell you how you can change a life through sponsorship. Sponsoring a Shanti Bhavan child costs \$2,148 per year and covers everything a child needs to grow and thrive. Thanks to a sponsor, a child from an impoverished family receives an exceptional education, nutritious meals, health and dental care, and the steady guidance of caring adults who believe in their potential.

By becoming a sponsor, you give a child stability, dignity, and the confidence to imagine a future filled with possibility. You become a steady presence in their life—someone who helps open doors they could never reach on their own.

I've enclosed the profiles of two children in need of a sponsor:

- **Paul**, one of our newest Pre-K students, comes from a family facing significant hardships. His father is visually impaired, and his mother struggles with serious mental health challenges, so his relatives have been caring for him. When his father and extended family brought him to Shanti Bhavan, they expressed deep gratitude knowing he would be safe, supported, and loved.
- **Keerthara**, in Grade 9, lives with her mother and sister when she's not at Shanti Bhavan, as her father passed away when she was only two. She shines in academics—especially in mathematics—and spends her free time reading books filled with magic and adventure, including the Harry Potter series.

As a sponsor, you will receive three updates a year so you can follow their progress, celebrate their milestones, and witness the impact of your support.

Thank you for your interest in Shanti Bhavan and for the compassion you bring to our world. I look forward to deepening our relationship as the children you support grow and flourish.

A handwritten signature in cursive script that reads "A. Turner".
